ONE CENT DIME FOUND IN NEW ROLL OF 1956 CENTS

Two years ago this month the above photos and article was published in this magazine. At that time we had some 1,000 circulation, today we are circulating 4,000 copies. Many of our new readers haven't seen this piece or article, due to this and its great interest we have rewritten it.

The proud owner is Donald Barer of Newark, N. J. Donald isn't a collector, but when he opened a bank wrapped roll to make change for the cash register of the pharmacy where he worked, out came a shiny silver cent. His curiosity prompted him to inquire at some of the coin stores of its nature and value. It was interesting to hear some of the offers given. One dealer didn't want it, others offered from \$2.00 to \$50.00. The last known offer was \$125.00 from California in 1956, after the photo and article were published. The only other known piece similar to this was reported by Michael Kolman Jr., of Federal Coin Co., Ohio.

The question of how it came about is still a mystery. It is one cent struck on a dime planchet, the obverse also has the impression of Roosevelt, right to left looking up. The reverse has the leaves and branch showing with (one dime) imprinted in the right wheat stalk. It has reeded edges and is slightly larger than a cent. Both impressions are raised. It is evident this coin went from one press hopper to another. The question then is, what is it, a cent or a dime?

AD FORMS CLOSE THE 20th OF EACH MONTH.

Entered as second class matter October 13, 1956 at the post office of Newark, New Jersey under the act of March 3, 1879.

A visit to The New England Coin Convention—Yours truly and Chester Krause (Mr. Numismatic News) from Wisconsin, shared a table at the NENA convention Oct. 11-12. This was probably the first time two publishers got together giving sample copies of their publications. We were pleased to have Chet visit with us at our home. Shortly before midnight we started for Worcester, Mass. the site for this 14th annual event. We arrived at the Bancroft hotel at 3:30 a.m. We missed most of the beautiful scenery due to the darkness, but we made sure we left Sunday noon to take in the Autumn landscapes through Mass., Conn., and N. Y.

Among the many friends, collectors and readers, we met Grace Lincoln, Andrew Scott, Maurice Gould, Mr. Kittleridge, Clifford Howe and many others too numerous to mention. The Auction and Convention was a success with many Canadian Unc. items going over book prices. Our first evening, we were invited to dinner at one of the famous steak houses with Mr. and Mrs. Ed. Rochette of Worcester. Each steak measured 15" long, 2" thick. They must have been the largest in Mass. Our drive back to the convention saw many pumpkins on the road stands. I decided to buy the largest there was to bring home to the children as a surprise. It was a large 40 lb. one, there'll be pumpkin pies in Newark!

The 1955 Double Shift Cent—During the past few years many collectors and dealers have inquired of the rarity and number of pieces of this Double Date Cent also if a listing in the catalogs is forth coming. One reliable source mentioned this error was caught at the mint, but the bags were accidentally shipped to the Federal Bank in Mass. This area was the first to discover these double dates. It is estimated some 25,000 were shipped, the average sales of these scarce coins are \$15. in fine to \$35. Unc. We feel this popular coin should

be listed in the price books. Mr. Yeoman, editor of the Red Book whom I met in the ANA Phila. convention in 1957 mentioned, if the 1955 double shift cent proved popular he would list it in the guide book. The next edition may have it.

The Newark Coin Club, celebrated its 2nd anniversary at the last meeting October 14, 1958 with 40 members. Lots of coffee and 3 big cakes were served. The election of new officers for the coming year were the same. A drawing of a set of cuff links and tie pin donated by Charles Leherer was won by yours truly, 3 chances were left, I played the percentage.

The Central States Convention will be held in April, 1959 in Kansas City, Mo. The host coin club will be "Heart of America Numismatic Ass'n." over 400 members listed this event should prove to be a big success.

Through the many medium of advertising and coin clubs, the rate of new collectors and speculators are at a new high. Broken Bank notes and Confederate notes once could be bought in large quantities for a dollar or more, are now bringing the same price for one or two pieces. This obsolete currency is drawing new interest from the collector due to its interesting history and engraving.

The response to our grading type sheet of (53) photos has been gratifying. We still have a large quantity on hand, many orders of 10 to 30 have been sent. These grading sheets are useful as gifts, display and excellent for distribution for attending club members. Order now while we have an ample supply on hand. 25¢ each, (3) for 50¢ or 15¢ each for 10 or more postpaid. Please check our special Holiday offers on page 5.

Mrs. Wayne Raymond has announced that the complete rights to several numismatic works originally published by her late husband, have been purchased separately by Whitman Publishing Company and John J. Ford, Jr.

HAPPY THANKSGIVING TO ONE AND ALL!

INVESTMENT SETS

Since I first originated this new type of set I have advertised it only by direct mail. The novel idea of this set has generated much interest and I have selected The Flying Eaglet to carry the first of my ads offering this set to all interested in the scarcer coins of each year.

Briefly, my Investment Set is a set of 5 coins of each year, the coin of each denomination being the one with the lowest mintage of the year, regardless of Mint. For instance, the 1955 Investment Set consists of the 1955-S Cent, 1955-P Nickel, 1955-P Dime, 1955-D Quarter, and the 1955-P Half. These coins comprise the scarcer coin of each denomination in 1955. It is hardly necessary to point out that every one of the coins mentioned above are on their way to becoming truly scarce as they disappear from the market.

As another example, the 1954 set is made up of the 1954-P Cent, and the 1954-S Nickel, Dime Quarter and Half. The sets offered are well below Red Book prices for the 5 coins. All those who order will receive my latest Investment Letter, price list, and information on a new type of coin club.

CONTEST WINNERS

The winner of the closest guess to the number of proof sets struck during the month of Sept. was, DONALD ROWLEY, of Quincy, Ohio. His guess was 82,235, the number struck was 87,288.

The best find of the month was from GERALD C. WEIST from Yonkers, N.Y., his find was 1922-D Unc., clipped planchet, 1914-D V.F., 1909-S V.F., and a 1957-D cent with about 1/8" wider diameter than a regular cent.

The 1958 proof sets have been sent to these lucky winners. Note: This issue concludes this contest as we have run out of proof sets. In all we have given over a dozen proof sets as prizes.

National Coin Week Awards

were won by Harold Don Allen, George Becht, and Elmer G. Nelson in Individual Class. Club competition were Muncie, Indiana, Saginaw, Michigan, and Pingry School, Elizabeth, N. J.

NEW COIN CLUB

The Kitchener Coin Club, has been started in Canada. Some 12 members are listed. The President is Alexander Watt, they meet once a month.

Dear Sir:

Enclosed you will find a money order for a subscription to the Flying Eaglet which I have sold to one of my customers and am forwarding on to you. I expect to sell more subscriptions in the future as I have opened my own coin shop, called Jim's Coin Shop.

My wife and I have enjoyed reading the Flying Eaglet, as it has helped us a lot in our new venture in the coin business. I find that once you are sold on a magazine such as the Flying Eaglet, it is not hard to sell it to others.

We hope we will have a lot of business dealings in the future.

—J. C. L'Herault
1035 17th Ave., S.W.
Calgary Alta., Canada

Dear Sir:

I respectfully wish to state at this time that I think that the Flying Eaglet is the finest Coin Journal that is published and I wish to say so, here and now.

—Israel Levy

Dear Mr. Spadone:

Enclosed is \$.50 for three copies of the grading chart that appeared in the September issue of the Eaglet.

I'd like to take advantage of this opportunity to let you know how much enjoyment I get from your publication. I've been collecting close to a year now and haven't as yet run across any world-shaking finds, but reading the Eaglet each month always renews my interest and it's articles to me have more revealing facts than any other coin magazine.

Luther Shelton II Reports From Chicago

Hugh M. Knight reported in his coin corner in the Sun-Times that plans have been completed for a new branch of the Smithsonian Institute in Washington, to be known as the Museum of History and Technology. It will have a wing called the "Hall of Money" which will contain a complete collection of United States coins.

The South Bend Coin Club about 50 miles south east of Chicago had an exhibition and bourse October 18 and 19th at the Studenbaker Union Hall in South Bend, Indiana.

Dear Mr. Spadone:

Your valuable magazine the "Flying Eaglet" soared in on time this morning, bringing Lincoln and his 'running mate' on Page 3 of the October issue.

I have learned the following from R. Gerald McMurty, director of the Lincoln National Life Foundation: They have 35 different types of campaign buttons and one is identical to mine, and the ones used in 1864 depict Lincoln and Johnson.

I would be interested in contacting anyone with a Lincoln and Johnson. I look forward with pleasure to the visits of the Flying Eaglet.

—Arthur Spidel
Brewster, Ohio

—
Been getting the Flying Eaglet for 5 months now. Have sent for other coin magazines but yours is the best because it's small and easy for the beginner to understand. Also have been very pleased about the coins I have purchased from ads in your magazine.

—Donald Rowley
Quincy, Ohio

—
In return for the enclosed check, please mail me 10 copies of "Grading Series" sheets. We enjoyed the copy in the Sept. issue of F.E. but feel the others would be even better. We appreciate the efforts you put forth for us numismatists.

Your free gift ruler rec'd. and used continuously.

—Mrs. R. D. Carr, Oakland, Cal.

1943 Copper Cent-Statement

Marvin F. Beyer, the 14 year old from Rivera, Calif. who found this rare cent and went the expense with family of \$700. with various authentic tests to prove it genuine, wrote our office in regards to the withdrawal of his rare cent from the California ANA Convention auction. Marvin stated, due to the many collectors asking why the cent was withdrawn a half hour before the sale and to others wishing to secure this rare cent he offers the following information.

There never was a consignment for the sale of the cent nor has he been able to negotiate an agreeable contract with an agent. He still has the rare cent, intends to sell it or contract it to any reputable dealer.

COLLECTIONS TO BE SHOWN

The Montreal Coin Club has booked the Queen Elizabeth Hotel for a numismatic exhibit from members' collections, Saturday, Dec. 6. The exhibit, designed to mark the centennial of Canadian decimal coinage, is intended to arouse numismatic interest in the Canadian metropolis. The public is invited, and a special welcome will be extended to out-of-town numismatists, who are requested to communicate with the Club sec'y-treasurer, Robert Verity, Apt. 37, 2330 Lincoln Ave., Montreal 25.

FLYING EAGLET READERS AND COLLECTORS FROM THE ORIENT

This numismatic group was photographed in Lokota, Tokyo, Japan. Mr. Uno Sojiro, of Japan is shown with his gold collection. The first (3) pieces in the frame are: 1601 Kicho, 10 Ryo, 150,000 Yen, 1601 17,000 yen, 1837 Ten Po, 1 Ryo, 5,000 yen. A note of interest of these large gold pieces, is that the legend is in black ink. When the ink wears out they are taken to the mint and get it redone for a fee. The Japanese also have coin groups and catalogs.

1/Lt. Adrian J. Smith, a pilot in the U.S. Air Force, is stationed in the Tokyo area, he is shown with his collection. Lt. Smith, an ardent reader of the Eaglet, is also a frequent advertiser. In his hand he holds a Flying Eaglet emblem patch. These patches are proving popular with the collectors and coin groups. Lt. buys, sells and trades Foreign and U.S. coins.

These two gents are also ardent readers of our Eaglet. They are, left to right, M/Sgt. House and Mr. Richard Morris. They too are living in the Tokyo area. They are holding their copies of The Flying Eaglet. This group and others usually meet at each others homes and have a get together, buy, sell, swap and talk coins. It has been said there are many rare U.S. coins in Japan. Since the many tourists and merchants left their U. S. money there during visits many years ago.

Paper Money Round-Up

IN SEARCH OF A STORY

By Harold Don Allen

The sleek mainliners that rush along the Pennsylvania Rail Road electrified right-of-way out of New York and Newark to Philadelphia, Washington and beyond flash across the historic, sluggish Raritan River and bisect the heart of the distinctive old city of New Brunswick, New Jersey, without so much as a slackening of pace. Travellers with a flair for place names and regional background no doubt observe that Rutgers University and its famed Institute of Microbiology are close at hand, but a numismatist well might have quite another first thought:

"I wonder what they've done with the old State Bank."

That, at least, was my thought as I lugged suitcases through the New Brunswick station on a morning in late Spring, preparing for a ten-week stay in the town. One suitcase contained my unsigned old bill of "The State Bank at New Brunswick" - among the most available, and most strikingly intricate, of the later notes of the broken banks. My ten weeks were for graduate work at Rutgers - but I was out to get that story as well.

I stopped by at the newspaper office. I made discreet inquiries at a downtown bank. I visited the historical museum. I got myself

written up in the local daily, talked banking practices, and was shown a room where George Washington had slept, but all I really found was three groups of people who were surprised and interested to learn that there had been a local bank that had failed and that I actually possessed one of the century old bills!

Purchased for a dollar on Montreal's St. Catherine street, I hastened to point out.

My only lead, an interesting one, came from a very old man in a bank office, who recalled where the original State Bank building once had stood. Not during his lifetime had it been a bank, but the edifice had kept alive the story of that old institution. Today, even that trace is vanished. The busy thorough traffic on Albany near George views only the triangle-circle trademark, asserting that New Jersey's Public Service Corporation has its place of business, and gas and electric bills can be paid and bus timetables procured. Yet this proves to be the site of the old State Bank.

But none of the present generation in the entire community dream that the old institution existed. I know I could dig the history from musty volumes in the Rutgers library, and some day I shall. The purpose of this piece merely is to document an old suspicion of numismatists: that they are the only ones who serve to keep many facets of regional history alive.

The note very much does reflect the regional past: the woolen industry is symbolized in the vignette, and I was informed by the press that the sprawling head plant of Johnson & Johnson International, New Brunswick's chief employer, had its start in the local weaving trade. The railroad bridge over the river? There is too much coincidence in its striking resemblance to the 50 year old P.R.R. bridge over the Raritan. The vignette must reproduce an earlier bridge of similar design...

JUST ONE MAN'S OPINION

The Carson City Dollars are the most underpriced series of all coins minted.

All one has to do is check the number minted of each year and you will see that there will never be enough to supply our five (5) million or more (est.) collectors.

Take the 1885 with only 228,000 minted. This would be one for about every twenty-one collectors.

Second comes the 1881 with only 296,000 and so on.

I have a few sets of the 1880 through 1885 complete in Strictly Brilliant Uncirculated.

For set of six (6) \$21.95

Below are my prices for single coins . . . all Brilliant Uncirculated.

My second offering for this month is, in my opinion, a small set with a future.

The War Time Silver Nickel consisting of 11 coins minted 1942 to 1945. (see Red Book).

This set in Brilliant Uncirculated is beautiful and also underpriced in this booming coin market.

My price for the complete set is . . \$4.50

The 1943-D is of course in this set and this is one that I compare in value to the 1942-D which is selling today for \$4.50 each.

**"OFF-METAL" BEAUTY**

Jim Zuchowski, paying teller of the American National Bank, St. Joseph, Mo., recently was astonished to see a bronze nickel roll out of a "fresh" supply direct from the Kansas City Federal Reserve Bank.

It is a beautiful, well-struck 1957 Jefferson nickel, which appears to be predominately bronze . . . probably struck on a bronze planchet.

The coin is rimless with a diameter measurement of .807, as compared to a regular uncirculated Jefferson at .836. The thickness is .057 against .100, and is only .001 thicker than an uncirculated Lincoln. Portions of the field, obverse and reverse, have a proof-like appearance. The mint mark "D" is well struck. All legend, obverse and reverse, very plain, with tops of letters "In God We Trust" and lower portions of "United States of America" clipped slightly.

D. P. Lyon, 413 N. 22nd, St. Joseph, Mo., will be pleased to supply further information.

Dear Sir:

I just picked up a 1916 "D" Dime. I went to get cigarettes and in the change I received this dime. I must say it's good, but the "D" you just can see it.

—Clarence York

Dear Sir:

I finally had a lucky find: 1913-D type II nickel in Very Fine. A customer passed it on to me while I was running the concession stand at our opening football game.

—Gary K. Olsen
Haverford College
Haverford, Pennsylvania

Dear Sir:

After reading your article on "Frosted Proofs", I went over my 1957 and 1958 proof sets. I found a frosted head dime in the 1957 set and a rare frosted head nickel in my 1958 set. I also purchased a 1956 frosted half dollar with the bell on the reverse frosted. I would like to know if a frosted reverse is rarer than the frosted head.

—Bill Anderson
Hicksville, N. Y.

Dear Sir:

This past week I have had two interesting finds out of circulation.

First a 1940 Lincoln cent struck on a small planchet. I think it might have been a small foreign coin. There is some evidence of a milled edge.

Second a 1956 Lincoln cent with the i missing in the word LIBERTY.

I have been getting the "Eaglet" since the first year of publication Vol. 1, Feb. 1956 and enjoy it very much.

—Louis N. Beaird
Valhalla, N. Y.

Dear Sir:

While looking through a roll of dimes I found one with the obverse a 1952 dime and the reverse, of a Lincoln penny. The two are the exact circumference and thickness of a dime. Although the coin is most likely the work of some collector, it still looks to me like an interesting find.

—Dennis Brown
Vermillion, S. D.

Harry Forman, dealer from Philadelphia, Pa. has discovered a roll of 1958-D cents with a die break at bottom of the "D" making it look like a "P".

After fruitless searches in Canada for the large Canadian cents (some bank clerks had not seen any in years) I would like to submit the following as the find of the month:

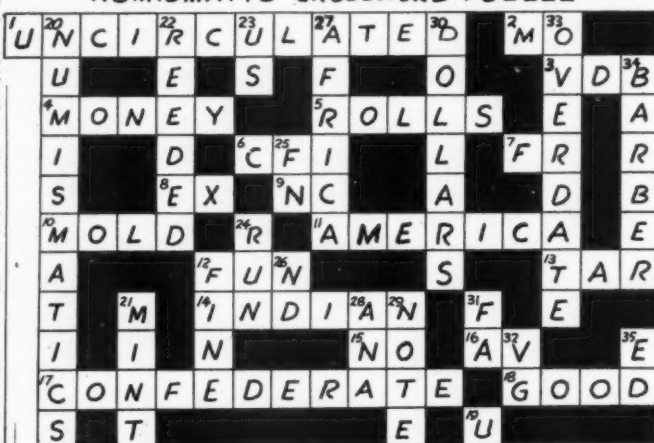

One hundred-eighty (180) Large Canadian cents (seventeen different dates) all received from one Detroit bank teller on Sept. 19th, 1958.

—Hadid P. Jusino

MEDALS - COINS BURIED WITH POPE

The burial of the late Pope Pius XII, had a semblance of ritual as the ancient Pharos of Egypt and other Majesty of ancient days. Many religions require the coffin of the dead to contain monies of coins, medals and other materials for the journey to their heaven. There are many beliefs, one being to have sufficient money to pay passage. Other beliefs vary with goods and tradition. Many lost tombs that were discovered were found to contain many rare items of value.

Pope Pius XII, was buried in magnificent red silk, placed in 3 coffins the first, a cypress coffin, a leaden one, along with the papal crest, a latin scroll testifying to his deeds as Pontiff and a velvet bag with examples of all the medals and coins struck during his Pontificate. Then the third which is of oak, is lowered into a crypt far below in the Michelangelo dome of St. Peters, not far from the spot where the crucified first Pope, Peter, was buried.

\$3,000.00 Worth of Rare Coins Saved by Alarm!!

On Sunday evening, October 19, 1958, thieves broke the show window of the Stamp and Coin Shop of Kenneth H. Shedden, 19-A No. Montgomery St., Trenton 8, N. J.

Among the coins were an 1856 Flying Eagle cent, the very rarest of the Flying Eagle cents valued at \$600.00, and the 1916 S.L. quarter valued at \$235.00. After smashing the window the buglar alarm sounded and the thieves fled the scene. No losses of coins were reported.

Question-Answer Box

Q. I heard that the figure on the Indian head cent represents the Goddess of Liberty and not an Indian, is this true?

A. Yes it is. In 1825 the government made an offer of \$1000 to the designer of a new cent being contemplated. Some Indian chiefs from the North West territories were touring the East. James Longacre, who was the mint's chief engraver, invited them to spend the evening with him. While Longacre's daughter Sarah aged 10, was being amused by the Indians. One of the chiefs placed his war bonnet on the child's head. Longacre, knowing, of the competition for the new cent design, quickly sketched his daughter and entered the portrait as his design for the coin. This is how the famous I.H. came into being.

Q. What is a Goloid Set?

A. "Goloid" metal was the brain child of Dr. Wheeler Hubbell. It was a compound of gold, silver and some copper. Goloid was supposed to be legal tender and was thought to be the answer for the exciting rivalry between silver and gold. These were several patterns made of the metal (mostly \$H sella). A set, lacking the sella, can be assembled for about \$100. with the stella much more.

Q. What is the rarest silver or minor coin ever issued by the U. S. Government?

A. The 1853 "O" 1/2¢ without arrows and rays is the rarest "major type" coin, struck by the U. S. Government, known. Most people think that a large number of these coins were melted at the mint leaving only 2 or 3 known today. I'll probably get an argument on the above subject, so if you have other ideas write me. (If in my opinion your letter merits publication I'll send it in to the publisher).

Q. What are the reasons for not cleaning coins?

A. The reason I am bringing up this inquiry is because most collectors have mistaken notions about cleaning coins. In most cases the main reason for not cleaning coins is that no method of coin cleaning can restore the original lustre to a coin. Cleaning coins in any condition usually produces an unnatural look that usually endangers the coins value. However a paste of baking soda and water rubbed on a silver gold or nickel coins surface and then rinsed off with luke warm water and dried will usually improve the appearance of the coin. You can remove some corrosion from copper coins by whipping them 2 or 3 times across a rug. But no method can ever reproduce the original lustre.

If you have a question concerning numismatics write me, Lynn Glaser at 240 E. 13th Ave., Conshohocken, Penna.

THE NEW SECOND EDITION OF:

A GUIDE TO COIN INVESTMENT

PRICE — \$3.00

(plus 25 cents for postage and handling)

Presenting an analysis of the growing area of numismatics
... a book for the future based upon the lessons of the past
and the coin trends of today. This book has been developed
after much study by a group of government research scientists
interested in coin collecting.

Particular attention has been given to an examination of the
influence of a "recession" upon numismatics.

CONTENTS

- Trends in coin sales — some up, some down
- Trends in coin prices — many are going up but a few down
- Price Resistance — most dealers deny it but it exists
- The Coin Purchaser — he is undergoing a change
- Coin Profits — a new problem coming
- The New Market Tone
- Canadian Coins — coming up strong
- The Current Investment Picture
- Coin Notes From Across the U.S.
- Numismatic Magazines
- Numismatic Newspapers
- Coin Publications — Which ones are read by numismatists?
- Coin Clubs — Sometimes an attendance problem
- Number of Coin Collectors — edging upward
- Geographical distribution of coin collectors — by states
- Distribution of coin collectors — by ages
- Coin preference and popularity — by ages
- Extent of coin collection completion
- How much is collected by each collector
- Coins Most Apt to be Sold by Collectors
- Future collecting plans of collectors
- The Silver Dollar as a Collectors Item — it has its advantages and disadvantages
- Current coin investment situation — sometimes in a turmoil
- Amount spent annually on coins
- Number of Coin Dealers in the U.S.
- Sorting of Coins — to become less profitable and more time consuming
- Particular investment techniques practiced
- Statistical location of scarce coins
- The Cleaning of Coins — Some vantages but some disadvantage.
- Problem of grading coins — no easy solution but can be overcome
- EXTENT OF COIN PRICE INCREASES FOR 1957 over 1955, 1958 over 1957
- A State-by-State geographical survey of coin sales and policy
- STATISTICALLY DETERMINED 1962 and 1972 COIN PRICES FOR ALL:
